

## 3000 Series Frame Styles

### 3000 Series Standard Main Frame

3 3/8" Overall Width

1 3/8" Nail Fin Set back (from outside face of window)

Most uses including new construction and replacement.

### 3000 Series Flush Fin Main Frame

3 3/8" Overall Width

For use when an existing frame remains in stucco, brick or other application. Please consult the [Flush-Fin installation guidelines](#).

### 3000 Series Stucco Key Main Frame

3 3/8" Overall Width

1 3/8" Nail Fin Set back (from outside face of window)

For new construction use with stucco and stucco like products. The small key on the face of the frame helps to conceal stucco shrinkage, caul lines and stucco spacing devices.

## 3000 Series Frame Styles

### 3000 Series Direct Set Picture Frame

3 3/8" Overall Width

1 3/8" Nail Fin Set back (from outside face of window)

Most uses including new construction and replacement.

### 3000 Series Accessory Main Frame

3 3/8" Overall Width

Used on some bay/bow window configurations or when accessories such as a sloped sill adaptor are required (The sloped sill adaptor is not structural and is aesthetic only).

### 3000 Series Casement/Awning Main Frame

3 3/8" Overall Width

1 3/8" Nail Fin Set back (from outside face of window)

For new construction use with stucco and stucco like products. The small key on the face of the frame helps to conceal stucco shrinkage, caul lines and stucco spacing devices.
